OBJECTIONS	HERES WHY LIBERTY'S PRODUCTS ARE BETTER
I need a CAT5e HDMI extender	We have tested many CAT5E extenders and have not found any that perform consistently at the resolutions and distances suggested by the manufacturer. We have an alternative that we believe is more reliable and ultimately compatible with HDMI 1.3 solutions.
I need a EZLinx™ style HDMI cable	Every connector adds dramatically to the losses and distances possible with an HDMI cable. This type of cable guarantees 4 connectors in every cable, significantly reducing the maximum cable length. We can supply an HDMI to DVI cables and DVI-HDMI adaptors that will have similar function and lower loss than the other cables. In addition the costs will be dramatically less. We offer a permanent cap that will protect the cable during the building process.
You don't have a complete product line	What are we missing that you might use?
Should I be doing HDMI	<ul style="list-style-type: none"> -Log into HDMI.org for more information -Future Proofing -Break away from analog -Only format with guarantee 1-to-1 pixel count from source to display -Only format with Ultimate Content protection`
1.3 Compatibility	<ul style="list-style-type: none"> -Only necessary for High end professional computer display, not home theater applications -HDMI 1.3 standard speed or HDMI 1.3 high speed - Best selling commercial HDMI cables - To see the complete offering of HDMI products please refer to page 180 of the Liberty product catalog.
Cable for life	<ul style="list-style-type: none"> -Who pays for the cost of taking it out of the wall? - What's the longest cable they put this guarantee on?
